## “Oil Painting from Photos”

### 9am-noon

#### Intermediate to Advanced

This class assists the student with the process of making an accurate reproduction of a subject using photographs or digital images. The step by step process begins by developing drawings of the live model and then preparing the canvas using this study with the photographic reference. We will also be focusing on a variety of oil painting techniques including alla prima (one-day sitting/ thick application) and glazing. Students receive instruction on how to identify values of light and color and transcribing them onto the canvas.

Previous oil painting and drawing experience recommended.

8 Classes

Where: 2408 Acacia Rd., Port Republic, MD  
(15 miles. N. of Solomons, MD and 50 miles. S. of Washington, D.C.)

Contact the studio regarding materials list and driving directions.
